November 19, 2020

Family Members,

We appreciate your diligence in reading our family letter posted weekly on our website. We never take for granted the importance of our families especially with the ongoing global pandemic. With Thanksgiving approaching please know that we are here to help set up phone calls and/or video calls with you and your family member.

As of today, we can thankfully share with you that we had no positive results from the Saturday, November 14th facility wide testing. Other good news that we bring is that all COVID-19 positive residents have recovered and have returned to their rooms. We currently have 31 staff members who are fully recovered and are back to work. Three positive staff members remain at home in isolation and are following the return to work guidelines. Hopefully we will not need to send out a notification later today or tomorrow that reflects positive results from our Wednesday, November 18th testing.

We received an unannounced visit from the Centers for Medicare and Medicaid Services on Thursday, November 5th, 2020. State surveyors were here to conduct a focused Infection Control review. The assessment consisted of a physical inspection of all parts of the Home and a staff overview of the care provided to our residents. We are pleased to report that there were no deficiencies from this review. We welcome all surveys, as we feel they validate the effective services provided at our Home. Thank you to all the staff who daily take pride in their work and the care they provide to our residents, they make our surveys successful.

Please feel free to reach out to us with any questions or concerns.
