December 5, 2020

Family Members,

We are pleased to share with you that all results are in from our December 2, 2020 facility-wide testing event and we have no new cases of the novel Coronavirus (COVID-19). As of today, we have no residents who are currently positive for COVID-19. Regarding our staff, 43 of our 185 employees tested positive for the virus since May 20, 2020. Three employees are currently quarantining at home, while 40 have fully recovered and returned to work.

The opportunity for residents to communicate with family and friends through Facebook Portal is available. A few residents have this set-up in their rooms and have enjoyed visiting with family and listening to music on the Alexa app. Our staff is willing to set-up Facebook accounts for the residents so they can easily speak to family members who have Facebook messenger. If you think your family member would be interested in this, please let the residents case manager know.

As always, please don't hesitate to contact us for further information.
