May 23rd, 2020

To Residents and Family Members:

We are thrilled to report that the COVID-19 test results returned, and we have **no positive cases for residents or staff**. The dedication of our staff and residents in practicing good infection control is paying off. We celebrate cautiously as we know that we may have positive cases in the future. At this time, we will continue to follow guidelines of the CDC and the North Dakota Department of Health.

Families are inquiring as to how they can help. Please note the following:

- Deliveries of food, flowers or plants can be accepted at this time.
- We are only able to answer inquiries regarding your family member. No information regarding other residents will be disclosed.
- Please visit our Facebook page to enjoy great photos and inspiring messages.
- For more information, please refer to our COVID-19 Update Tab on the website:

<http://www.nd.gov/ndvh/covid/>.

Visitation was suspended ten weeks ago today. We recognize how hard this has been for you. Please know that we miss you dearly and will remain committed to keeping your loved one safe and comfortable. The CDC has released some guidance on future ways to open nursing homes back up again, we will be making families aware as we know more.

The Spring season brings a message of resilience, renewal, and hope. Spring is a metaphor for positive change and rebirth. We can all agree that hope is more important now than it has been at perhaps any moment in the recent past. Together, we are facing unprecedented challenges and anxiety for our loved ones and ourselves. At this moment, our faith, our family, and our friendships are more important than ever. The things we have in common, our shared love of family and friends, are what will carry us forward. For everyone, we wish you the healthy gift of Spring as well. We will continue to update you on a timely basis and again please reach out to us directly if we can be of further assistance.

Sincerely,

Mark B. Johnson
